Dear Office of Admissions,

It is my honor to recommend Hamza Mwamoto for your educational institution. I have had the pleasure of knowing and working with Hamza since 2023 initially through teaching him Advanced Mathematics, and subsequently as a PCM (Physics, Chemistry & Mathematics) class teacher at Ilboru Secondary School.

Hamza is an exceptionally talented individual who excelled in various areas related to the school, effectively balancing his commitments both inside and outside the classroom. Academically, he consistently performed well and maintained top grades throughout the academic year. His hard work, dedication, and genuine interest in advanced mathematics shone through the impressive 'A' grade on his final examinations. Hamza was not only focused on his own academic achievements; he frequently went above and beyond to assist his fellow PCM (Physics, Chemistry & Mathematics) classmates by initiating engaging on-chalkboard discussion sessions and organizing after-classes study groups. He collaborated effectively with his fellow students to elevate both himself and others from their academic challenges.

As previously mentioned, while Hamza excelled in the classroom, he also dedicated significant time to club activities. He was an active and industrious part of the STEM club, helping to enhance the school's reputation in regional competitions; notably, he secured a trophy for the school at the annual Nelson Mandela University's Science Exhibition. Sometimes, during my classes, Hamza approached me to request permission to attend the STEM sessions, and I readily granted it without hesitation as I recognized his enthusiasm. Hamza was also a diligent student who consistently sought out his classmates afterward to catch up on any material he missed in class when he was away from school for the science exhibitions or STEM sessions.

Furthermore, I greatly admired Hamza's commitment to all subjects within his PCM combination. This was not only evident from the high praise he received from my fellow teachers who taught him Chemistry and Physics but also in how he integrated knowledge from these subjects into our Math class discussions and responded thoughtfully to questions. Hamza also exhibited strong leadership qualities; I could always count on him to carry out various tasks I assigned to the class in my absence. For example, when I was away, he would take the initiative to write the day's notes on the chalkboard or lead discussions on challenging questions I had posted. He consistently showed a proactive approach that benefited both his peers and himself, and this demonstrated a remarkable level of initiative. Hamza was also a leader in the STEM and Math Clubs, which explains why the club matrons frequently called him to her office. He also contributed to resolving technological issues within the school and appeared very

genuinely motivated and enthusiastic about challenges like fixing the school projector or computers, likely stemming from his dedicated involvement in the STEM club.

Hamza approached his responsibilities with a personal commitment, treating each task as if it were his own. He also demonstrated creativity in fundraising efforts for the church, significantly contributing to our success. I will always remember him for his productivity and dedication.

Most importantly, Hamza's character and the exemplary behavior he consistently displayed toward his fellow students, other teachers, and myself was extraordinary. He truly is a wonderful young man—quiet yet impactful, contributing significantly despite saying little. Additionally, he has never appeared on any of my lists of misbehaving students; I cannot recall ever having to discipline him for any misconduct. Hamza has always shown respect for his teachers, classmates, and his academic responsibilities.

For these reasons, I wholeheartedly praise him and confidently recommend him. I am confident that Hamza Mwamoto will be a valuable and cherished addition to your community, just as he was in ours. If you have any questions or require further information about him, please feel free to contact me.

Sincerely,

DAUDI ELIAS MADUHU

Class and Advanced Mathematics Teacher
